HARLYN BBC
HARLYN FINANCIAL INTELLIGENCE

Borrowing Base Certificate Automation

Less preparation.
More confidence in every certificate.

BBC Preparation in Minutes

Harlyn BBC automates recurring borrowing base preparation using your ERP data and saved settings. Save time gathering supporting reports, applying eligibility rules, and assembling the certicate, with consistent calculations that improve completeness and accuracy. Your rules carry forward; adjust them only when something changes.

Three Simple Actions

1 Set the Date
Choose the reporting date

2 Click Refresh
Let Harlyn BBC do the work

3 Certify and Send
Review, sign, and submit

Harlyn BBC Handles the Calculation Automatically

Source Balances and Data

Retrieves ERP balances and supporting AR aging and inventory detail for the reporting date, ready to accompany the certificate.

Eligible AR and Inventory

Automatically determines eligible balances from your saved settings, with exclusions, across aging, and inventory reserves shown separately.

Calculation and Certificate

Calculates the borrowing base using advance rates and flexible adjustments, then populates the certificate and suporting schedules for review and submission.
